

M3-M « à main »

M3-M : portable model with handle

- Very portable thanks to its handle (height=11cm) and its light weight (1.25kg), this measuring device will allow you to measure your cables, ropes, pipes...
- Up to Ø22mm
- Counter in dm measures up to 9999.9 meters
- Measuring wheel width 25 mm
- Development 200 mm
- Striated metal
- Manual use
- Dimensions and weight (M3-M): W130 x D 250 x H 200 mm (including handle 11 cm) - 1.25 kg

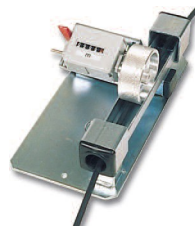

Code E3350010

As a matter of principle, the measuring of a long product cannot be made with a perfect accuracy. It is the user's responsibility to perform their own tests to identify the percentage of accuracy for the different products to be measured.

M3

Up to 22 mm in diameter

- Counter in dm measuring up to 9999.9 meters.
- Measuring wheel width: 25 mm development: 200 mm made of striated metal.
- Dimensions and weight (M3-T):
 - L 130 x W 250 x H 140 mm - 1,9 kg

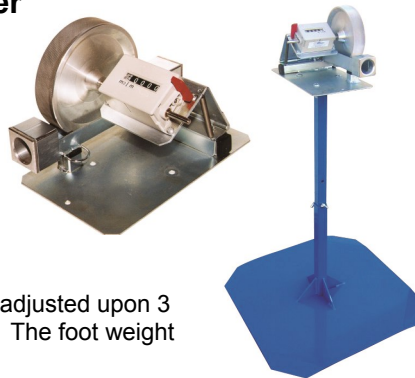

Versions	Use	Code
M3-T	Desktop model	E3350004
M3-B	for PKCO	E3350002
M3-C	for ST1-ST2	E3350001
M3-D	for BOBI	E3350009

As a matter of principle, the measuring of a long product cannot be made with a perfect accuracy. It is the user's responsibility to perform their own tests to identify the percentage of accuracy for the different products to be measured.

M35

Up to 35 mm in diameter

- Counter in cm measuring up to 9999.95 meters
- Measuring wheel width: 35 mm development: 500 mm made of striated metal or synthetic metal (for metallic cables)
- Durable aluminium end caps
- The stand-alone model can be adjusted upon 3 heights. (650, 740 or 820 mm). The foot weight (17 kg) allows a great stability
- Dimensions and weight (M35-T)

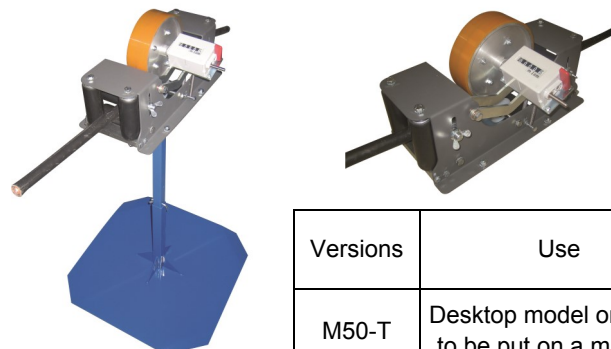

Versions	Use	Code for metal wheel	Code for synthetic wheel
M35-T	Desktop model	E3350354	E3350355
M35-P	Stand alone model	E3350353	E3350356
M35-B	for PKCO	E3350351	E3350358
M35-C	for ST1-ST2	E3350352	E3350359
M35-D	for BOBI	E3350369	E3350379

As a matter of principle, the measuring of a long product cannot be made with a perfect accuracy. It is the user's responsibility to perform their own tests to identify the percentage of accuracy for the different products to be measured.

M50

Up to 50 mm in diameter

- Counter in cm measuring up to 9999.95 metres
- Measuring wheel width: 50 mm development: 500 mm, made of striated synthetic material or polyurethane (intensive use).
- Guided at the entry and exit by 4 steel rollers and under the measuring wheel by a roller with flanges.
- Desk-top model and floor models (identical to that of the M35)
- For manual use or on a coiling machine.
- Dimensions and weight (M50-T)
 - W 195 x D 400 x H 175 mm - 10,10 kg

Versions	Use	Code
M50-T	Desktop model or model to be put on a machine	E3350520
M50-P	Stand alone model	E3350521

As a matter of principle, the measuring of a long product cannot be made with a perfect accuracy. It is the user's responsibility to perform their own tests to identify the percentage of accuracy for the different products to be measured.
